

# Stellar Phoenix SQL Database Repair 7.0 Installation Guide

# Overview

**Stellar Phoenix SQL Database Repair** software is an easy to use application designed to repair corrupt or damaged Microsoft SQL Server database (MDF) files in a safe and non-destructive manner. It uses powerful algorithms to perform thorough scan of MDF file so as to recover as much data as possible. The software never deletes or modifies original data and even heavily damaged files can be optimally repaired and restored.

Microsoft SQL server system is a full-fledged relational database management system (RDBMS) that offers an exclusive variety of a number of administrative tools for database development, maintenance, and administration. Microsoft SQL Server database files (MDF) can get damaged or corrupted due to a number of reasons such as virus attack, unexpected system shutdown, media read error, and so on.

# **Key Features**

- Support for MS SQL Server 2016, MS SQL Server 2014, MS SQL Server 2012 R2, 2012, MS SQL Server 2008 R2, 2008, 2008 (64 bit), 2008 Express, MS SQL Server 2005, 2005 (64 bit), 2005 Express, MS SQL Server 2000, 2000 (64 bit), 7.0 and mixed formats.
- Searches MDF files in the computer.
- Displays preview of recoverable database objects.
- Allows finding of object name in tree view.
- Supports Sequence Objects in MS SQL Server.
- Supports MS SQL Server ROW Compressed data.
- Supports MS SQL Server PAGE Compressed data.
- Supports Standard Compression Scheme for Unicode (SCSU) in SQL Server.
- Recovers Column Row GUID COL Property.
- Recovers Sp\_addextended Property.
- Saves non-recovered queries, views, stored procedures, etc. in a text file.
- Support for automatic recreation of a new database having all the recovered database items.
- Support for large SQL Server MDF files for all versions.
- Support for XML data types.
- Support for XML indexes.
- Support for SQL Server filestream data types.
- Support for SQL Server sparse columns.

- Support for SQL Server columns set property.
- Support for separate log report after scanning database.
- Support for Sorted tables in tree view and generates sorted log report.
- Support for fast scanning algorithms.
- Support for total row count detail in each table for all versions.
- Recovery of Tables, Triggers, and Views.
- Recovery of Collations.
- Recovery of Stored Procedure, Synonyms, and Functions.
- Recovers of Defaults and Default constraints.
- Recovery of Primary Keys, Foreign Keys, Unique Keys, and Identity.
- Recovery of Indexes (Clustered, Non Clustered indexes).
- Recovery of Check constraints, User Defined Data Types, and Null / Not null.
- Recovery of Predefined defaults, default values, and Rules.
- Compatible with Windows Server 2012 / 2008 / 2003 and Windows 10 / 8 / 7 / Vista / XP.

### What is New in This Version?

### New features in Stellar Phoenix SQL Database Repair include:

- Support for MS SQL Server 2016.
- Option to recover deleted records.
- Option to save repaired database to Live database.
- Option to save repaired database as CSV, HTML and XLS.

# **Installation Procedure**

Before beginning the installation procedure, make sure that the computer meets the minimum system requirements.

## **Minimum System Requirements:**

Operating system: Windows Server 2012 / 2008 / 2003 and Windows 10 / 8.1 / 8 / 7 / Vista / XP

Hard Disk: At least 50 MB of free disk space

**RAM:** 1 GB minimum (2 GB recommended)

**MS SQL Server:** MS SQL Server 2016, MS SQL Server 2014, MS SQL Server 2012, MS SQL Server 2008 R2, 2008, 2008 (64 bit), 2008 Express, MS SQL Server 2005, 2005 (64 bit), 2005 Express, MS SQL Server 2000, 2000 (64 bit), 7.0 and mixed formats.

### To install the software, follow the steps:

- 1. Double-click Stellar Phoenix SQL Database Repair.exe. Setup dialog box is displayed.
- 2. Click Next to continue. License Agreement dialog box is displayed.
- 3. Select I accept the Agreement option. Click Next.
- 4. Specify the location where the installation files are to be stored. Click Next.
- 5. Select the folder where the files are to be stored. A default folder is suggested in the box. Click **Browse** to select a different location. Click **Next**.
- 6. In the **Select Additional Tasks** dialog box, select check boxes as per your choice. Click **Next**.
- 7. Review your selections. Click **Back** if you want to make any change. Click **Install** to start installation. The Installing window shows the installation process.
- 8. After completion of the process, **Completing the Stellar Phoenix SQL Database Repair Setup Wizard** window opens. Click **Finish**.

*Note:* Clear *Launch Stellar Phoenix SQL Database Repair* check box to prevent the software from *launching automatically.* 

# Launching the Software

.

# To launch Stellar Phoenix SQL Database Repair in Windows 10:

- Click Start icon -> All apps -> Stellar Phoenix SQL Database Repair Or,
- Double click Stellar Phoenix SQL Database Repair icon on the desktop. Or,
- Click Stellar Phoenix SQL Database Repair tile on the home screen.

# To launch Stellar Phoenix SQL Database Repair in Windows 8.1 / 8:

- Click Stellar Phoenix SQL Database Repair tile on the home screen. Or,
- Double click Stellar Phoenix SQL Database Repair icon on the desktop.

# To start the application, do one of the following in Windows 7 / Vista / XP:

- Click Start -> All Programs -> Stellar Phoenix SQL Database Repair Or,
- Double click the Stellar Phoenix SQL Database Repair icon on the desktop. Or,
- Click Stellar Phoenix SQL Database Repair icon in Quick launch.

# **User Interface**

### **User Interface**

**Stellar Phoenix SQL Database Repair** software has a very easy to use Graphical User Interface. The user interface contains features required for complete recovery of corrupt MS SQL Server (MDF) files.

After launching the program, you will see the main user interface as shown below:

# **Ordering the Software**

Click <u>http://www.stellarinfo.com/sql-recovery.htm</u> to know more about **Stellar Phoenix SQL Database Repair**.

To purchase the software online, please visit <u>http://www.stellarinfo.com/database-recovery/sql-recovery/buy-now.php</u>

Alternatively, click on Purchase icon in Help Menu on Menu Bar to purchase the software online.

Select either of the methods given above to purchase the software.

Once the order is confirmed, a serial number will be sent to you through e-mail, which would be required to activate the software.

# **Registering the Software**

The demo version is just for evaluation purpose and must be eventually registered to use the full functionality of the software. The software can be registered using the Registration Key which you will receive via email after purchasing the software.

# To register the software:

- 1. Run demo version of Stellar Phoenix SQL Database Repair software.
- 2. On **Registration** menu, click **Register** option. *Register* window is displayed as shown below.

Register		×
Select an option to complete the regis	tration process:	
I don't have the registration	n key	
O I have the registration key		
Online Registration	Offline Registration	
		_
	Cancel OK	

3. Choose 'I don't have the registration key' (Use this option if you have not purchased the product) or select 'I have the registration key' (Use this option if you have already purchased the product).

# To register the software, when you do not have a registration key, follow the steps given below:

- 1. In the *Register* window, select 'I don't have the registration key' option. Click OK, to go online and purchase the product.
- 2. Once the order is confirmed, a Registration Key will be sent to the email provided at the time of purchase.
- 3. In the *Online Registration* window, type the **Registration Key** and click **Register** button (Please ensure that you have an active Internet connection).

Online Registration	$\times$
Enter the Registration Key and click 'Register' button. Software automatically connects to the server to complete registration.	
Registration Key: C88C-0709-68F7-6876-3F92 Register	
Please ensure you have a working internet connection.	
An email with Registration key has been sent to you, after successful purchase.	
Registration key is sent to the same email, that you specified in your purchase details.	
Cancel	

4. 'Activation *Completed successfully* ' message is displayed after the process is completed successfully. Click **OK**.

## To register the software, when you have a key, follow the steps given below:

- 1. In the *Register* window, select 'I have the registration key' option.
- You can choose either 'Online Registration' (Use this option to register the software over Internet) or 'Offline Registration' (Use this option to register the software manually / through e-mail if for any reason, Internet connection is unavailable).

## Online Registration

Online Registration is possible only when an active Internet connection is available.

### • To register the software online:

1. From the *Register* window, select **Online Registration**. Click **OK**.

Register		×
Select an option to complete the regis	tration process:	
O I don't have the registratio	n key	
<ul> <li>I have the registration key</li> </ul>		
Online Registration	O Offline Reg	gistration
	Cancel	ОК

- 2. An Online Registration dialog box will appear.
- 3. Type the **Registration Key** (received through email after purchasing the product) in the field of Registration Key. Click **Register**.

Online Registration	х
Enter the Registration Key and click 'Register' button. Software automatically connects to the server to complete registration.	
Registration Key: C88C-0709-68F7-6876-3F92 Register	
Please ensure you have a working internet connection.	
An email with Registration key has been sent to you, after successful purchase.	
Registration key is sent to the same email, that you specified in your purchase details.	
Cancel	

4. The software would automatically communicate with the license server to verify the entered key. If the key you entered is valid, software will be registered successfully.

## Offline Registration

Offline Registration enables you to register the product when your computer does not have an Internet connection.

## • To register the software offline:

1. From the *Register* window, select **Offline Registration**. Click **OK**.

Register		×
Select an option to complete the regis	tration process:	
O I don't have the registration	n key	
<ul> <li>I have the registration key</li> </ul>		
Online Registration	Offline Registra	ation
	Cancel	ОК

2. An **Offline Registration** dialog box will appear displaying **Registration ID** in its respective field.

Offline Registration	on X
Send 'Registration If you already ha	n ID' to Stellar Technical Support to get your 'License Key'. ve 'License Key', enter it and click 'Register'.

License Key:	
	Cancel Register

- 3. To get your License Key, which is required to register the software manually, you need to mail the listed **Registration ID** to <a href="mailto:support@stellarinfo.com">support@stellarinfo.com</a>.
- 4. A License Key will be sent to your email address after verifying the Registration ID and purchase details by *Stellar Technical Support*.
- 5. After receiving the License Key, open **Stellar Phoenix SQL Database Repair**. In *Register* window, select 'I have the registration key'.
- 6. Select Offline Registration and click OK.
- 7. Enter the **License Key** received through email in the field of License Key.

Offline Registration	on ×		
Send 'Registration ID' to Stellar Technical Support to get your 'License Key'. If you already have 'License Key', enter it and click 'Register'.			
Registration ID:	AJQ5019POJIPEK7M-E588M9TREFJYHI0B-442GFAP47L:		
License Key:	xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx		
	Cancel Register		

8. Click **Register** to activate the software. A confirmation message is displayed if a valid key is entered. Click **OK**.

# **Transfer License**

**Stellar Phoenix SQL Database Repair** allows you to transfer the license of the registered software to another computer on which you want to run the software with full functionality. This operation deactivates the product on your current computer so it can be reactivated on the new computer.

# To transfer a software license from one computer to another, please follow the specific steps below:

## **On Target Computer:**

- 1. Run demo version of the software.
- 2. In Registration Menu on Menu Bar, click Register. A new dialog appears.
- 3. From the *Register* window, select Offline Registration. Click OK.
- 4. An Offline Registration dialog box will appear displaying Registration ID in its respective field.

Offline Registration	on X
Send 'Registration If you already ha	n ID' to Stellar Technical Support to get your 'License Key'. ve 'License Key', enter it and click 'Register'.
Registration ID:	AJQ5019POJIPEK7M-E5B8M9TREFJYHI0B-442GFAP47L
License Key:	
	Cancel Register

### **On Source Computer:**

- 1. Run registered version of Stellar Phoenix SQL Database Repair software.
- 2. In Registration Menu on Menu Bar, click Transfer License.

Transfer License	×
To transfer the license of the program, copy the Registration ID from the target computer and paste it below. Click on "Transfer In" to generate a License Key which needs to be pasted in target computer.	
Registration ID:	
License Key:	
click here to know the steps of transferring license to another computer.	
Save To File TransferIn Cancel	

- 3. Copy the **Registration ID** displayed on the Target Computer in the field of Registration ID on the Source Computer.
- 4. To get your License Key, click **Transfer In** button on Source Computer. This will generate a License Key.
- 5. You can also save the License Key generated on the source computer. Click **Save to File** button to save the Registration ID and the License Key. In **Browse for Folder** dialog box, select the location where you want to save the details. Click **OK**.
- 6. 'License Key has been saved successfully' message is displayed after the saving process is completed successfully. Click **OK**.

Transfer License	×		
To transfer the license of the program, copy the Registration ID from the target computer and paste it below. Click on "Transfer In" to generate a License Key which needs to be pasted in target computer.			
Registration ID:	fs54551sfd545s4ff21s6d465f65fs6d54s65f4s654f654		
License Key:	XXXX-XXXXX-XXXXXX-XXXXXXX		
Click here to know the steps of transferring license to another computer.			
	Save To File TransferIn Cancel		

This will deactivate the product on Source Computer and you will no longer be able to use the software anymore on this computer.

# **On Target Computer:**

1. Type the **License Key**, which you have generated on the Source Computer in the provided field of License Key.

Offline Registration X				
Send 'Registration ID' to Stellar Technical Support to get your 'License Key'. If you already have 'License Key', enter it and click 'Register'.				
Registration ID:	AJQ5019POJIPEK7M-E5B8M9TREFJYHI0B-442GFAP47L			
License Key:	XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX			
	Cancel Register			

- 2. Click **Register** to complete the activation process.
- 3. '*Activation Completed Successfully*' message is displayed after the process is completed successfully. Click **OK**.

# **Updating the Software**

Stellar releases periodical software updates for **Stellar Phoenix SQL Database Repair** software. You can update the software to keep it up-to-date. These updates can add a new functionality, feature, service, or any other information that can improve the software. Update option of the application is capable of checking for latest updates. This will check for both latest minor and major versions available online. You can easily download minor version through the update wizard. However, the major version, if available, has to be purchased. While updating the software, it's recommended to close all the running programs. Note that demo version of the software cannot be updated.

# To update Stellar Phoenix SQL Database Repair:

- 1. In Tools Menu, Click Update.
- 2. Stellar Phoenix Update Wizard window opens. Click Next. The wizard will search for latest updates, and if it finds any new updates, a window will pop up indicating its availability.
- 3. Click **Next** and the software will download the files from the update server. When the process is complete, the software will upgrade to the latest version.

## Live Update may not happen due to following reasons:

- Internet connection failure
- Updates are not available
- Unable to download configuration files
- Unable to locate updated files or version
- Unable to locate executable file

Note: If a major version is available, you need to purchase the software in order to upgrade it.
